Cremation Options

BURIAL | permanent choice

Burying an urn in the cemetery is a popular choice for families since it provides a permanent resting place where families & friends can freely visit.

NICHE | long-term choice

Some families place the urn in a columbarium niche, providing a location where they can pay their respects. Personalization options are vast.

HOME | short-term choice

Displaying an urn at home or in a beautiful boulder in your garden is an option. Some families express concerns about the long-term custody of the remains.

SCATTER | irreversible choice

Since scattering cannot be reversed, you may wish to scatter only a portion of the cremated remains and keep the rest for permanent placement in the cemetery.
