

Operator safety is a PRIORITY for Cousins Packaging.
Our machine designs incorporate more safety features than any other pallet wrapper.

ENHANCED SAFETY PACKAGE OPTION

- ❖ Protected on all four (4) sides
- ❖ Light curtains protect the entry side (CAT 3)
- ❖ Includes 78" high wire mesh fencing on 3 sides
- ❖ Shuts down when someone enters the wrap zone
- ❖ Complies with Category 3 Safety Level
- ❖ Possible retrofit on existing machines
(contact your Cousins Pkg. Regional Manager for details)

- ❖ The system shown above features the automatic "A-Arm", the most reliable and trouble-free film attach and cut device. It allows your operator to load, wrap and unload without ever having to leave the fork truck or touch the stretch film.
- ❖ The machine will not operate until the operator is clear of the protected area.
- ❖ Can be installed with all Cousins pallet wrappers.
