

ENGINEERED SYSTEMS CONVEYORS AND MATERIAL HANDLING PRODUCTS

Cousins Packaging can design a stand-alone machine or complete engineered material handling system to meet your specific requirements. We manufacture our own conveyors in-house so that your entire system is designed, built and tested at our facility.

Systems In-Line with Palletizers

← We have worked with most major palletizer manufacturers to integrate an in-line fully automated wrapping system.

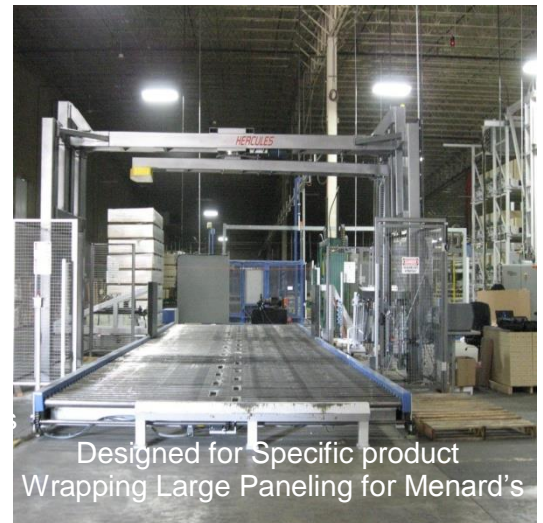

Load Lifting Device

↗ We can provide specialty material handling equipment
