7900 MONTTOYA CIRCLE, BOCA RATON, FL 33433

Dr. Sterman's presentations were stimulating, engaging, and educational. Perhaps most impressive, however, was Dr. Sterman's ability to effectively communicate his case for wearing Techelet, while not not pushing any one agenda. His presentations are intellectually honest and are careful to clearly explain and validate divergent and opposing opinions. Agree or disagree, his presentations are compelling, intellectually honest and will leave everyone with much food for thought.
