## Message from the ACHE MN President

DAVID VOLLER, FACHE | PRESIDENT

Members,

Wow, this year went about as fast as any I've ever experienced. It truly seems like it was last week when I shared my opening greetings as your President. I believe a lot of this has to do with many aspects of both my personal life along with the many great things we have done as ACHE MN.

Through the year we have accomplished much, with an extreme amount of gratitude for our board, committee chairs, their teams and each of you as our members. Here are some of our great accomplishments:

- Sponsored 10.5 in-person educational credits
- Sponsored 6 virtual interactive education credits
- Expanded partnerships with local universities, associations, and other ACHE chapters to broaden and enhance our educational offerings and programs
- Chapter growth:
  - Total membership increased by 8%
  - 812 current Minnesota members
- Recognition by ACHE: Received the Chapter Merit Award

As we close out this year, I want to thank each of you as our members and share my encouragement to keep being great leaders for your teams. Healthcare is riddled with obstacles, but your ability to be a great leader remains constant.

For me, I will have officially retired this year, and I look forward to this next phase of life with my wife. However, after 34 years of being in our industry, I remain excited to watch how healthcare will continue to evolve. There is so much opportunity and as we heard during our annual meeting - we need to find a new business model. What that model can and will be is your oyster. Polish the future and continue to develop great team members!

Thank for the confidence you gave in me to be your president this past year and all my best to each of you!

David

David J. Voller, MBA, FACHE  
President, ACHE MN

## Message From Your ACHE MN Regent

DAVID WALZ, RN, FACHE | REGENT FOR MINNESOTA

Hello ACHE-MN,

Congratulations and welcome incoming MN Regent Katie Kummer, FACHE! Her term will begin at Congress in March 2026. I have enjoyed being your Regent and have been honored to have represented the ACHE-MN membership nationally with ACHE. While bittersweet to be writing my last Regent message, I have had the pleasure of meeting amazing members, leaders, students, Regents, Governors, and the ACHE national staff.

Reflecting on the last three years, I have enjoyed engaging with our Higher Education Network schools, faculty, and students at The College of St. Scholastica, University of Minnesota, University of St. Thomas, St. Mary's University Online, and Walden University Online. I also want to extend my congratulations to the new 2025 ACHE Fellows and 2025 Regent Award winners (highlighted on pages 4 and 7).

As I pass the torch, I am filled with optimism for the future of our chapter. The passion and dedication I have witnessed throughout our community are truly inspiring, and I am confident that under Katie's leadership, ACHE-MN will continue to thrive and make impactful strides in healthcare leadership.

I encourage each of you to stay actively involved, continue your professional development, and leverage the rich network and resources that ACHE provides. Whether through mentoring, attending local events, or pursuing Fellow status, your engagement is vital to our shared success.

Thank you for the opportunity to serve you and for the countless memories we've created together. I look forward to seeing all the great things that lie ahead for ACHE-MN.

Wishing you all continued success and fulfillment in your roles.

Warmest regards,

David F. Walz  
Regent for Minnesota  
CEO Madelia Health

# WELCOME NEW MEMBERS

**Welcome to our 66 new members and 8 transfer members! We are thrilled you have decided to join the Minnesota Chapter of ACHE in our commitment to healthcare leadership excellence. We're here to help you achieve your personal best while making healthcare safer, more accessible, and affordable to all.**

# 2025 ANNUAL CONFERENCE *RECAP!*

This year's annual conference, **"Reimagining Healthcare Together: The Crossroads of Technology, Talent, and Trust,"** reflects the opportunities and challenges shaping our profession.

Dominica Tallarico, Executive Vice President and Chief Operations Officer at Allina Health, shared a few words of welcome.

Kendra Busch shared her patient story as was accompanied by Jeff Prendergast from Special Olympics Minnesota. Julie Hobbs facilitated the Q & A. Julie serves as our Southern Local Program Council Chair and is deeply involved with Special Olympics Minnesota.

## **Panel 1 - Disruptive Innovation in Healthcare Delivery**

Explored how innovators across Minnesota and beyond are challenging traditional models and building new pathways to accessible, efficient, and patient-centered care. Jennifer Olson served as the moderator for this discussion. Jennifer is the Owner and Senior Strategic Advisor for BlueInnovo Advisor. Panelists were David Vidal, Vice Chair of AI Enablement, Mayo Clinic, Thompson Aderinkomi, CEO and Co-Founder, Nice Healthcare and Dr. Sameer Badlani, Executive Vice President, Chief Strategy Officer & Chief Digital Officer at M Health Fairview / Fairview Health Services

# 2025 ANNUAL CONFERENCE *RECAP!*

## Panel 2 - Responding to a Dynamic Governmental Landscape

This panel explored how policy, regulation, and public trust intersect in today's healthcare environment — and how leaders are adapting to ensure their organizations remain agile, ethical, and resilient. Leading this important conversation was Dr. Jakub Tolar, Dean of the University of Minnesota Medical School and Vice President for Clinical Affairs at the University of Minnesota. Panelists were Santo Cruz, Senior Vice President and Chief Legal Counsel, CentraCare Health, Bob Hume, Vice President of Policy and Communications, Minnesota Hospital Association (MHA), and Kerri Gordon, Vice President, Chief Communications and External Affairs Officer, Allina Health.

David Walz gave the 2025 Regent Awards to the following:

- Early Careerist Award: Jennifer Moebius, MBA
- Mid Careerist Award: Andrea Pastor, FACHE, MBA, RHIA
- Higher Education Network Award: Justine Mishek, MHA

The following Service Awards were also celebrated to the following:

- Katie Kummer, FACHE; Natalie Caine, FACHE; Lindsey Lehman, FACHE, MPH, MHA; Allyssa Stevens, MHA; David Voller, FACHE; David Walz, FACHE, MBA, RN

# 2025 ANNUAL CONFERENCE *RECAP!*

## Keynote – Leading During Transformation (Hannah Ubl)

Hannah Ubl presented the keynote on Leading During Transformation. Hannah is a renowned communication and culture expert, as well as the-cofounder of Good Company Consulting. Her company's mission is to help organizations create workplaces that don't suck and is motivated by the simple idea that the key to any great business is to put people first.

## Panel 3 – Maintaining and Regaining Trust in the Age of Cyber Threats

This panel examined how organizations can protect sensitive data, prepare for and respond to cyberattacks, and maintain confidence among patients, employees, and partners. Moderating this discussion was Stig Ravdal, Founder and CEO of Ravdal Consulting. Panelists were Steven Kellerhals, Senior Engagement Manager, Incident Response, Arctic Wolf Incident Response and Melissa Fors Shackelford, Founder, Shackelford Strategies.

A huge thank you to our annual sponsors! It is through the generosity of sponsors that we are able to advance our programming and the value we provide to our members. Thank you for your support of ACHE MN!

- Gold – Children's Minnesota, Mortenson.
- Premier – MedCraft Healthcare Real Estate, Wold Architects & Engineers, Salix, GSK.
- We'd like to extend a very special thank you to Allina Health for generously donating the meeting space. We are so grateful for the partnership and hospitality.

# Event Highlights

## Strategies to Create Meaningful Executive Alignment with Physicians and Organizational Financial Goals

December 11, 2025 | CentraCare South Point, 3001 Clearwater Road, St. Cloud, MN 56301  
CentraCare South Point, 3001 Clearwater Road, United States

The Strategies to Create Meaningful Executive Alignment with Physicians and Organizational Financial Goals panel discussed how physicians can get involved in leadership and how they and administrators can adapt to the dyad model. The panel will highlight today's environment and the impact on physicians and advanced practice providers, their personal leadership journeys, how and why they decided to take on a leadership role and why there is a need for clinician leadership. There was insightful information shared on dyad partnerships and the considerations and characteristics to make it successful. The panel concluded with a discussion on finding and grooming potential leaders.

### Speakers:

Douglas Hanson, MPA, Senior Advisor, C-Suite Resources

Ulrika Wigert, MD, FAAFP, Physician Vice President of Regional Markets, CentraCare

Bryan Lydick, MHA, Vice President of Regional Markets, CentraCare

Wade Swenson, MD, MPH, MBA, FACP, Medical Oncologist & Hematologist, Lakewood Health System

# Event Highlights

## Healthcare Equity

December 15, 2025 | Virtual

The panel focused on the critical importance of healthcare equity in delivering high-quality, patient-centered care. The session addressed persistent disparities affecting vulnerable populations and explored how artificial intelligence can both help and hinder equity efforts. Attendees heard practical strategies for embedding equity into organizational culture and operations, with expert panelists sharing insights on overcoming systemic barriers and using data and AI responsibly. Thank you to our 38 attendees for learning with us on this important topic!

We connected with member Josh to learn about his role and passion as a Healthcare Practice Leader with Wold Architects & Engineers and why he is an ACHE MN member.

## Josh Ripplinger, AIA, ASHE, EDAC, LEED AP

Healthcare Practice Leader  
Wold Architects & Engineers

### **BACKGROUND:**

#### **Q: Tell us about your current role and what it entails:**

**A:** As Healthcare Practice Leader at Wold Architects and Engineers, I guide our national healthcare design strategy and collaborate with clients to create environments that promote healing, efficiency, and community connection. My role bridges architecture, engineering, and operations, ensuring that every design decision supports the full patient and caregiver experience. I work closely with healthcare organizations, hospital administrators, and providers to plan facilities that are responsive to evolving care models and long-term operational needs.

#### **Q: What prompted you to pursue a career in healthcare?**

**A:** My passion for healthcare design began early in my career when I realized how profoundly the built environment impacts recovery, dignity, and emotional well-being. As an architect, and later as a cancer survivor, I've experienced firsthand the difference that thoughtful, empathetic spaces can make. That experience reshaped how I approach design and inspired me to focus my work on healthcare environments that heal beyond medicine.

#### **Q: When did you know you wanted to work in the healthcare field and/or what inspired you?**

**A:** After my own treatment experience, I developed a deep appreciation for how space influences care. That perspective solidified my commitment to creating environments that balance functionality with humanity, supporting both patients and the teams who care for them.

#### **Q: What advice were you offered that has led to this career or opportunities that you have pursued?**

**A:** I've been fortunate enough to receive advice that emphasizes the importance of listening to clients, caregivers, and patients alike. Understanding their lived experience is where good design begins. I was also taught early on to pursue continuous learning, which has guided my professional growth and involvement with organizations like ACHE.

### **CONNECTION TO ACHE:**

#### **Q. How long have you been a member of ACHE?**

**A:** I have been a member of ACHE for almost 15 years.

#### **Q: Why did you decide to join ACHE MN?**

**A:** I joined ACHE Minnesota several years ago to stay connected to the broader healthcare leadership community and to better understand the administrative challenges that accompany design decisions. ACHE offers invaluable opportunities to learn from leaders across disciplines, from operations to clinical care, helping me approach facility design with a more holistic lens.

#### **Q: Do you sit on any ACHE MN committees?**

**A:** I sure do! I currently serve on the Board of Directors as the Mentorship Chair for ACHE Minnesota. In this role, I help facilitate connections between emerging and experienced healthcare professionals, creating pathways for shared learning and professional growth. Supporting the next generation of leaders has been one of the most rewarding parts of my involvement.

**Q: Any advice for students thinking about joining ACHE?**

**A:** Yes, the ACHE MN mentorship program is an amazing experience as you begin your career, as well as growing throughout your journey in healthcare as both a mentor and a mentee. Please strongly consider applying to join our program!

**Q: What do you gain most from your ACHE membership/participation?**

**A:** ACHE keeps me grounded in the “why” behind healthcare delivery. The insights and connections I’ve gained through the organization strengthen my ability to bridge design with strategic planning, ensuring that every facility we create supports long-term care goals and community well-being.

**MENTORSHIP:**

**Q: Did you (or do you) have a mentor that played a role in your navigating your career?**

**A:** I had the great fortune of having several great mentors early in my college career that reinforced my decision to become an architect and eventually a planner and designer that focuses specifically on healthcare. I learned from them when I was younger, and I lean on them still today as a lifelong learner.

**Q: What stands out as some of the most important lessons your mentors have taught you?**

**A:** A couple of the major lessons include the importance of going above and beyond to drive towards excellence, as a leader the importance of investing in and empowering the next generation of leaders, and the value of seeking the thoughts and ideas of others.

**PERSONAL:**

**Q: What are some of your hobbies?**

**A:** I’ve been married to my high school sweetheart, Coral, for more than two decades, and we have two wonderful (and occasionally sassy) kids, Samuel and Matilyn. Our family loves being active, from spending time on the water to cheering at sporting events or traveling to visit relatives and explore new, warm-weather destinations. When I’m home, I’m a huge movie fan and have watched more than 1,500 films in my life; it’s my favorite way to unwind and get lost in a great story.

**Q: Name something on your bucket list.**

**A:** The next bucket list experience I am pursuing is a great white shark dive (in a protected cage of course)!

**Q: What makes you the person you are?**

**A:** Resilience and gratitude. My experiences, both personal and professional, have taught me to approach challenges with perspective and compassion. Those qualities drive how I lead teams and shape my approach to the environments we design.

**Q: Is there anything else you’d like to share with fellow ACHE members or healthcare professionals about your work?**

**A:** As an architect working closely with healthcare leaders, I’ve learned that the most successful projects begin with shared understanding, not drawings or blueprints. Every conversation about design is ultimately a conversation about care delivery, culture, and community. My goal is to be a bridge between vision and reality, translating complex operational goals into spaces that truly serve patients and caregivers.

Our **Member Feature** aims to highlight individual members and their diverse backgrounds, as well as celebrate the amazing work you do. Please share your story today or nominate a colleague who you think should be featured. Email us at [contact@achemn.org](mailto:contact@achemn.org)
