Our Philosophy

Theatre Arts Training is a process-based program dedicated to providing professional theatre experiences and education to build curious, creative, and confident young artists and people. We are more interested in what happens along the journey, from the first day to the last, than in a polished product. With this focus on the education experience, our camps take place in classrooms and rehearsal halls, not on stages.

All students are welcome to participate in all camps (with the exception of audition-based programs). We acknowledge and support that engagement and success looks different for each student, and our faculty prioritizes keeping their teaching style, activities, and goals flexible to the needs of our students.

We strive to supply students with source material from diverse perspectives representing communities from a multitude of ethnic and racial backgrounds, economic statuses, abilities, sexual orientations, and gender identities.

Statement of Inclusion

As part of Children’s Theatre Company’s commitment to access and inclusion, Theatre Arts Training makes intentional choices in our classroom practices to provide a welcoming space for peoples of all ability, ethnicity, economic status, sexual orientation, and gender identity. Our program includes need-based scholarships, all-gender restrooms, introductions with pronouns, and a faculty happy to work with families to meet students’ individual physical, learning, and social needs. If there are ways we can be more welcoming to your family, please let us know at education@childrenstheatre.org.

“CTC provides the ultimate inclusive environment. This is the only place my daughter feels like she can be 100% her unique self and accepted and liked by peers and teachers as a result. You provide the community she craves and this boosts her confidence that it is ok to march to the beat of her own drum.”

- Theatre Arts Training Family
