Final Identification of the Deceased

Cremation is an irreversible process. Where there is human involvement, there will always be the potential for human error. This can apply to hospital, coroner, and mortuary staffs. To be safe and sure, for your peace of mind and ours, we suggest a positive identification of the deceased before cremation. In our memorial service and direct cremation option, there is no embalming and only a very limited time that the deceased may be transferred out of refrigeration and identified (refrigeration or embalming are required by state law 24 hours after death – CRS 12-54-111). So that the deceased remains in an essentially refrigerated state, we respectfully request that the identification be for no more than 30 minutes from the time we agree to begin. In the interest of full disclosure while minimizing movement of the deceased, the identification occurs in the container that will shelter the deceased prior to cremation and will be later consumed in the cremation process. We will also dress the deceased in any clothing provided. There is a \$195 charge for the identification viewing at the crematory facility including staff time. If you decline the identification viewing, please allow at least 48 hours before the cremation process begins.
