

The power of gas meets the beauty of glass

This sleek gas-on-glass hob combines the precision and efficiency of a gas flame with glossy, elegant and easy-to-clean ceramic glass - a unique design experience.

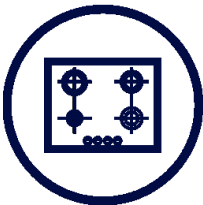

Product Benefits & Features

Robust, long-lasting support when cooking, for every meal

This gas hob features high-quality cast-iron pan supports. With such sturdy supports, you will have a robust and stable base for cooking, for a long time to come.

A natural movement, all the way from low heat to high

At the front of this hob are the rotary control knobs. They're designed to be easy to twist and turn when you change the power levels of your hob.

A new level of flexibility for using pans of different sizes

Because this hob has three different sizes of burner, it gives a new level of flexibility for using your different-sized pots and pans more effectively.

Automatic hob ignition allows you to get started without delay

By cleverly combining heat control and the ignition in one push-and-twist button, you can fire up your hob instantly and get cooking in no time.

A practical solution gives you peace of mind

If the flame of your gas burner is accidentally blown out, this hob's innovative technology can detect it, and automatically cut off the gas supply.
