

#### A hot spot for every pan

Our Infinite induction hob has self-sizing cooking zones. They cleverly recognise different pan sizes and shapes straight away and send heat straight into the base of each pan, in precisely the right places. So you can put all your favourite pans on the hob together, and have several delicious dishes ready at the same time.

### Product Benefits & Features

#### Cook more in one go

Get the results you want when you're entertaining friends and family, or cooking large quantities for the freezer. This hob's Bridge function links two zones together so they act as one, with the same temperature and time setting. It makes cooking in large or long pans effortless.

#### Control at your fingertips

The Touch controls on this hob let you turn the heat up, down or off – immediately. They're precise and easy to use: just use a fingertip to gently slide to the temperature you need. You can be confident they'll do what you want them to at just the right moment, so you can create delicious meals

#### Good looks, precise functions

Smart and stylish, the Infinite Pro hob features a white LED display designed to harmonize with all the other appliances in the range. Control your hob, enjoy the style of your kitchen.

#### Boost the heat for instant results

When you need to cook really rapidly, the Booster function is perfect. Touch it for an instant burst of heat to boil water in under 90 seconds\* – that's even faster than an electric kettle. It's great for last-minute vegetables and other quick cooking jobs too, like cooking pasta and rice.

#### Remembers where you left off

Whenever you get interrupted, you can put your cooking on hold with the Pause button. It makes sure nothing burns if you're called away from the kitchen and, conveniently, it remembers the different heats under all your pans. So when you're ready, one touch puts you back exactly where you left off.

- Hob type: Induction
- Hob with bevelled frame
- Controls position: Front Middle
- Illuminated controls
- Digital indications for each zone
- Induction zones with power booster function
- Pot detection
- Left front zone: Induction, 2300/3200W/180x210mm
- Left rear zone: Induction, 2300/3200W/180x210mm
- Middle front zone: No, 0W/0mm
- Middle rear zone: No, 0W/0mm
- Right front zone: Induction, 2300/3200W/180x210mm
- Right rear zone: Induction, 2300/3200W/180x210mm
- Automatic fast heating up
- Stop and Go function for short interruptions
- Key-lock function
- Child safety lock function
- Automatic safety switch off
- Acoustic signal with switch off option
- CountUp Timer
- EcoTimer™
- Timer function
- CleverHeat™ function
- Easy installation thanks to snap-in system
- Main colour: Black
- Direct Access Rotary
- Rotary Slide Controls
