

#### Set the perfect flame for your favourite dish

Enjoy cooking without guesswork using our 700 Pro StepPower gas hob. You can manage the flame levels by setting them between 1 and 9. And because there's no need to bend down to see what's going on, it's easy to create the perfect meal.

### Product Benefits & Features

#### Reliable cooking with StepPower

Manage the flame on your gas hob precisely with our StepPower controls. Select a heat level from 1 to 9, making it easy to set the right power without having to bend down to look.

#### SpeedBurner for quick cooking

Our Gas SpeedBurners are the quick and efficient way to cook. Unlike conventional gas hobs, our burners direct the flame to heat the base of pots and pans. This saves up to 20% of energy and cooks food quickly. Perfect for boiling, simmering, searing and frying.

#### Powerful Wok for fuller flavour

Boost the flavour of your food with our Powerful Wok burner. It delivers high levels of heat that are perfect for searing fresh prawns in a stir-fry or cooking off pastes to make mouth-watering curries. Create delicious flavours with the powerful heat of our burner.

#### Look professional with a Cast Iron Grid

Your hob will have a professional finish with our Cast Iron Grid. These sturdy pan supports provide a stable base for cooking. Thanks to their durable material, they'll last for years.

#### Press for Integrated Ignition

Begin cooking quickly and easily with our Integrated Ignition. To activate the hob, press and turn the knob and the burners will ignite. It's fast and safe, so you can focus on creating delicious meals.

- Hob type: Gas
- Rotary knob controls
- Controls position: Front Right
- Left front zone: Mariane, Multicrown WOK Burner, 3900W/70mm
- Left rear zone: Mariane, Semi Rapid Burner, 2000W/80mm
