

Get Better Heat Distribution and Reduced Maintenance Downtime By Converting To Our New Divider Manifold Plate Heaters!!

This month's web posting presents our new Divider Manifold Plate Heater retrofit which is available for dual accumulator head machines. This package replaces the existing cartridge heaters in your divider manifold.

Divider Manifold with Plate Heaters

The Benefits

The new plate heaters mount to the outside surfaces of your existing divider manifold and provide:

- Improved heat distribution in the divider manifold
- Faster heat up times
- Reduced maintenance downtime to replace burnt out heaters.
- Easier, neater wiring with fewer wires and connections.

The Retrofit Package

The new plate heaters are available for the following dual accumulator head sizes:

Head Size	Divider Manifold PN
Double 2.5 lb. 12" Center Distance	10350294
Double 5 lb. 20" Center Distance	10360833
Double 8 lb. 24" Center Distance	10361959
Double 10 lb. 26" Center Distance	10361544
Double 15 lb. 24" Center Distance	10361999

Package Includes:

- Plate heaters
- Fasteners
- Wire
- Electrical Schematic

Sales and Service and Engineering

For more information including pricing on the plate heater upgrade, or any other machine retrofit, please contact your local Uniloy Parts Sales Representative. Trained Uniloy Service Representatives are available to assist in the installation of these packages at your facility. All Uniloy retrofit packages are engineered to suit your individual machine specifications. Complete engineering documentation including assembly drawings, parts lists, and schematics are always included.
