

## Cooling Bed Crossover and Z-Step Accessway

Upgrade your UNILOY machine with the operator compatible Cooling Bed Crossover and Z-Step Access way. These enhancements will benefit your blowmolding operation by providing easier and safer access to the die head assembly, blow pin assemblies and stripper assemblies. This upgrade allows your operators to properly adjust and maintain these assemblies in a safe and productive manner.

### Cooling Bed Crossover Assemblies

Includes:  
End Frames  
Railings  
Floor Channel  
Leveling Pads f Hand Railing  
Misc. Nuts & Bolts  
Meets Current U.S. Safety Requirements  
Engineering Documentation

### Z-Step And Guard Assemblies

(For machines equipped with Cooling Beds)

Includes:  
Z-Step Plate  
Mounting Brackets and Supports  
Meets Current U.S. Safety Requirements  
Fixed Guards  
Misc. Nuts & Bolts

### **Z-Step And Guard Assemblies**

(For machines equipped with Spinoff/Shuttle Assemblies)

Includes:

Z-Step Plate  
Mounting Brackets and Supports  
Hand Railing  
Meets Current U.S. Safety Requirements  
Hinged Front Guard with Safety Interlocked System  
Fixed Guards for both ends of Shuttle Assembly  
Safety Control Circuitry System on Load End of Trimmer  
Safety Control Circuitry

### **Z-Step And Guard Assemblies**

(For machines equipped with Direct Load Impact Trimmers)

Includes:

Step Plate  
Mounting Brackets and Supports  
Hand Railing  
Meets Current U.S. Safety Requirements  
Extended Fixed Front Guards  
Hinged Side Guard with Safety Interlocked
