

## RETRO-FIT OF UPS

**Product Description:** Retrofit of 24V UPS for PLC

### Advantages:

- Supplies 24V circuit with sufficient power to finish cycle in the event of mains power outage
- Avoids possible loss of data corruption due to sudden power loss.
- Ensures all axes are in basic position before ending

### Features:

- Inline 24V uninterruptable power supply.

### Hardware structure:

- Wiring and PLC programme change required

### Main functions:

- If mains power supply to the machine is interrupted the UPS allows the PLC programme to finish it's current cycle
