

EXTRUDER MOVEMENT (ELECTRIC)

Product Description: Extruder sleigh fore/back electric

Advantages:

- Labor and time saving method of raising and lowering Extruder table

Features:

- Touch screen operated, machine door must be open for safety reasons

Hardware structure:

- 3 Phase (400v) motor drive upgrade for for/back extruder movement. (Replaces hand-driven option)
- Requires an available input/output for communication.
- Extra wiring required in control panel.
- Control program upgrade required to enable function.

Main functions:

- Electrically driven movement of extruder sleigh
