Tech funding in the GTA is up 16% vs 2018

Three megadeals have led tech funding in the Greater Toronto Area to new heights in the first 9 months of 2019. Vena Solutions raised \$115M in growth capital in the first quarter followed by Wealthsimple's \$100M raise in Q2 and TouchBistro's \$158M round in Q3. All three are in the FinTech vertical which has accounted for over half of all GTA funds raised so far this year.

\$1.5 Billion
133 Funding Rounds

Record breaking year for GTA

The \$1.5 billion in capital raised in the first three quarters of 2019 already exceeds the \$1.3 billion raised in all of 2018. A strong Q4 could deliver the region's first \$2 billion year.

Primarily Canadian capital

Foreign capital made up 30% of capital provided for the GTA. This may indicate stronger participation of late-stage Canadian funds rather than a decline in foreign investment.

Quarterly FinTech Funding for the GTA

FinTech funding increased 63% vs 2018

The \$776 million raised by FinTech companies in the first three quarters of 2019 already exceed last year's full-year total of \$691 million. Almost 50% was concentrated in 3 companies (Vena Solutions, Wealthsimple and TouchBistro) so it remains to be seen whether FinTech will continue to be the GTA's #1 vertical.
