

## **Archaeology Writing Ideas for Homeschool Package**

1. Research and find five of the most notable archaeological finds. Put them on a timeline and write a paragraph describing why each of these were important finds and what was found. (5-12)
2. Research and discover why certain places are chosen to be archaeological dig sites. What goes in the decision to begin a dig? What discussions have to be made with the owner of the land or the country the site is located? What tools and manpower are needed? (5-12)
3. Write four journal entries that an archaeologist might write when working at a dig site. (3-12)
4. Research the requirements to become an archaeologist. Describe the job. (3-12)
5. After watching the videos, pick three key points that you learned and describe what information was gained about the topic. (3-12)
