

Showcase Eco™

Visualize | Realize | The leather you imagine, and more.

Showcase Eco is a beautiful chrome free, top grain, biodegradable product that combines quality with performance. Offered in a contemporary choice of colors, Showcase Eco utilizes the best selection of material to maximize cutting yield. Protected at the highest levels while maintaining a natural draggy hand, Showcase Eco is designed to satisfy the most discerning leather buyer.

Note: Environmentally friendly Showcase Eco emits low VOCs and has achieved an Indoor Gold Advantage certificate from SCS. It is also chrome free, solvent free and contains no lead.

Technical Specifications

Origin	USA
Raw Material	Top grain, aniline drum dyed
Leather Type	Pigmented, chrome free
Hide Size	50 – 55 sq.ft.
Thickness	1.0 – 1.2 mm
Abrasion Resistance	ASTM D7255: CS10 Wheel Taber 1,000 cycles/1,000 gram weight
Light Fastness	ISO 102-B05: Blue Wool Scale ≥ 5
Wet Crocking	ASTM D5053: Class 5
Dry Crocking	AATCC 8 and ASTM D5053: Class 4
Blocking	FTMS 311 3121.1: Separate with ease and no finish damage
Elongation	ASTM D2208: 40% maximum @100 lbs.
Tear Strength	ISO 3377: 100 lb. minimum
Flexibility	ASTM D2097: 70,000 cycles
Flame Resistance	NFPA 260: Class 1; CAL TB 117–2013; Boston Fire Code; NY/NJ Port Authority
Performance Category	3
Cleaning Code	4

Performance Category 3

Leathers with Performance Category 3 are protected for use in the most challenging wear, stain and fading environments such as commercial aviation, automotive, office task chairs and dining seating. Only pigmented and semi-aniline leathers with strong protection meet the standards for this category. Of course, these leathers are also suitable for any application where bright, uniform colors and exotic looks are desired. More information is available on our website at cortinaleathers.com/resources/performance/.

Warranty

Leathers with Performance Category 3 have a 5 year limited warranty against manufacturing defects. See complete details at cortinaleathers.com/resources/warranty/.

Showcase Eco™

Care & Cleaning Code 4

Semi-aniline and pigmented leathers are resistance to wear, scratching and staining so they require very little maintenance to maintain their beauty over time. General upkeep requires only an occasional dusting with a clean cloth. Periodically, you may wish to gently wipe the leather with a clean, damp cloth to remove accumulated soil and allow it to air dry. Leather conditioners and protectants, such as those by Leather Master® can be used as directed. Should a spill occur, blot (pressing gently without rubbing) immediately using clean, dry sections of an absorbent cloth or paper towel. Should soiling remain or for a more thorough cleaning, Cortina Leathers Universal Cleaner High-Tech Wipes® or a solution of lukewarm water and a mild cleaner, such as Ivory® soap or Woolite®, may be used. Dampen a clean white cloth and gently wipe the affected area using a circular motion. Rinse completely with clean sections of cloth which is damp with plain water until all cleaner is removed. Blot dry with paper towels or dry cloth and allow to completely air dry. Repeat the cleaning process as needed, allowing the leather to dry between applications. While it is possible to remove many deep stains and soiling from semi-aniline and pigmented leathers, it may not be possible to remove all stains from this natural product. More information is available on our website at cortinaleathers.com/resources/care-cleaning/.
