Utah

Visualize | Realize | The leather you imagine, and more.

The thicker, heavy-weight bull hides lend Utah a more rugged, textured feel than most classic distressed upholstery leathers, and the pure aniline process yields unmatched natural beauty. Treated with an application of paraffin and then dry-milled, Utah exudes a cozy, comfortable look. Utah celebrates the natural markings of this authentic, organic product and will patina richly over time.

Note: Environmentally friendly Utah is lead free, emits low VOCs and has achieved an Indoor Gold Advantage certificate from SCS.

Technical Specifications

Origin	Italy
Raw Material	Full grain, European bulls
Leather Type	Pure aniline
Hide Size	50 – 55 sq.ft.
Thickness	1.2 – 1.4 mm
Abrasion Resistance	ASTM D7255: CS10 Taber Wheel 250 Cycles/500 gram weight
Light Fastness	ISO 102-B05: Blue Wool Scale ≥ 2
Wet Crocking	ASTM D5053: Class 1
Flame Resistance	NFPA 260: Class 1: CAL TB117–2013
Performance Category	1
Cleaning Code	1

Available Colors

57-1 Gardenia

57-2 Natural

57-3 Rye

57-4 Roano

57-5 Cacao

57-6 Marmo

57-7 Anthracite

57-8 Dorato

57-9 Sellino

57-10 Porpora

57-11 Corvino

Performance Category 1

Leathers with Performance Category 1 are considered by many to be the most beautiful and authentic leathers, most likely because they are least protected. These leathers include pure anilines, aniline leathers with less protection, nubuck leathers, suedes, etc. All Category 1 leathers are protected with water repellency to resist water spotting and are expected to patina, wear and age gracefully over time, making them perfect for many applications. However, these leathers are not recommended for uses where they will be subjected to heavy staining, abrasive wear or direct sunlight. More information is available on our website at cortinaleathers.com/resources/performance/.

Care & Cleaning Code 1

Pure aniline and aniline leathers are designed to age and patina gracefully, increasing in beauty over time. Cortina Leathers' pure aniline/aniline leathers are treated in the drum for water and soil repellency and so can be maintained with very little care. General upkeep requires only an occasional dusting with a clean cloth. Never use oils, saddle soaps, conditioners or cleaners on pure aniline or aniline leather. Pure aniline/aniline leathers have the least amount of protective finish, so spills and soiling should be removed immediately to avoid permanent discoloration. Should a spill occur, blot (pressing gently without rubbing) the spill with clean, dry sections of an absorbent cloth to soak up any remaining liquid. Do not rub. Should soiling remain, use lukewarm water to minimally dampen a clean white cloth with plain water and gently blot the affected area. Blot dry with paper towels or dry cloth, and allow to air dry. Caution must be used. It may be necessary to cease efforts prior to total stain removal because over-rubbing and over-wetting can do additional harm to the leather's appearance. It may not be possible to remove all stains from this natural product. More information is available on our website at cortinaleathers.com/resources/care-cleaning/.

Warranty

Leathers with Performance Category 1 have a 1 year limited warranty against manufacturing defects. See complete details at cortinaleathers.com/resources/warranty/.
