

Vespa

Visualize | Realize | The leather you imagine, and more.

The Vespa leather line is consistently sought by discerning designers looking for a sophisticated, dual-tone leather fashioned with pure Italian artistry. The colors highlight Vespa’s distinctive grain texture on large European hides noted for a soft, supple hand only the Italians can achieve. Vespa leathers are treated with a tone-on-tone finish, specifically chosen to enhance the base color, resulting in a sophisticated new variety of tipped leather designed to be showcased.

Note: Environmentally friendly Vespa is lead free, emits low VOCs and has achieved an Indoor Gold Advantage certificate from SCS.

Technical Specifications

Origin	Italy
Raw Material	Top grain, European bovine
Leather Type	Pigmented
Hide Size	50 – 55 sq.ft.
Thickness	1.1 – 1.3 mm
Abrasion Resistance	ASTM D7255: CS10 Taber Wheel 500 Cycles/500 gram weight
Light Fastness	ISO 102-B05: Blue Wool Scale ≥ 5
Wet Crocking	ASTM D5053: Class 5
Flame Resistance	NFPA 260: Class 1; CAL TB117–2013
Performance Category	2
Cleaning Code	4

Performance Category 2

Leathers with Performance Category 2 retain their natural appearance while carrying additional protections against abrasion, staining and color fading. Aniline leathers with some protection and semi-anilines are found here. These leathers are suitable for a wide range of applications across a wide range of wear and stain risk, such as those found in commercial settings and dining areas. More information is available on our website at cortinaleathers.com/resources/performance/.

Warranty

Leathers with Performance Category 2 have a 1 year limited warranty against manufacturing defects. See complete details at cortinaleathers.com/resources/warranty/.

Care & Cleaning Code 4

Semi-aniline and pigmented leathers are resistance to wear, scratching and staining so they require very little maintenance to maintain their beauty over time. General upkeep requires only an occasional dusting with a clean cloth. Periodically, you may wish to gently wipe the leather with a clean, damp cloth to remove accumulated soil and allow it to air dry. Leather conditioners and protectants, such as those by Leather Master® can be used as directed. Should a spill occur, blot (pressing gently without rubbing) immediately using clean, dry sections of an absorbent cloth or paper towel. Should soiling remain or for a more thorough cleaning, Cortina Leathers Universal Cleaner High-Tech Wipes® or a solution of lukewarm water and a mild cleaner, such as Ivory® soap or Woolite®, may be used. Dampen a clean white cloth and gently wipe the affected area using a circular motion. Rinse completely with clean sections of cloth which is damp with plain water until all cleaner is removed. Blot dry with paper towels or dry cloth and allow to completely air dry. Repeat the cleaning process as needed, allowing the leather to dry between applications. While it is possible to remove many deep stains and soiling from semi-aniline and pigmented leathers, it may not be possible to remove all stains from this natural product. More information is available on our website at cortinaleathers.com/resources/care-cleaning/.
