

Glitterati

Visualize | Realize | The leather you imagine, and more.

The brilliant glimmer and variation of Glitterati makes a statement on any piece. Best described as a multi-toned metallic leather with a bright and transparent finish, Glitterati is chromium tanned European hide with a vegetable re-tannage, resulting in a leather of depth and substance. Special finishing treatments are used to create both roundness and softness, with a hint of wax and oil to obtain a subtly distressed and aged effect. Finally, a protective topcoat of crushed metal gives the hides a resistant yet glowing finish.

Note: Environmentally friendly Glitterati is lead free and emits low VOCs.

Technical Specifications

Origin	Italy
Raw Material	European hides, aniline drum dyed
Leather Type	Semi-aniline, metallic
Hide Size	50 – 55 sq.ft.
Thickness	1.0 – 1.2 mm
Abrasion Resistance	ASTM D7255: CS10 Taber Wheel 1,000 Cycles/1,000 gram weight
Light Fastness	ISO 102-B05: Blue Wool Scale ≥ 4
Wet Crocking	ASTM D5053: Class 4
Flame Resistance	NFPA 260: Class 1; CAL TB117–2013
Performance Category	3
Cleaning Code	4

Performance Category 3

Leathers with Performance Category 3 are protected for use in the most challenging wear, stain and fading environments such as commercial aviation, automotive, office task chairs and dining seating. Only pigmented and semi-aniline leathers with strong protection meet the standards for this category. Of course, these leathers are also suitable for any application where bright, uniform colors and exotic looks are desired. More information is available on our website at cortinaleathers.com/resources/performance/.

Warranty

Leathers with Performance Category 3 have a 5 year limited warranty against manufacturing defects. See complete details at cortinaleathers.com/resources/warranty/.

Glitterati

Care & Cleaning Code 4

Semi-aniline and pigmented leathers are resistance to wear, scratching and staining so they require very little maintenance to maintain their beauty over time. General upkeep requires only an occasional dusting with a clean cloth. Periodically, you may wish to gently wipe the leather with a clean, damp cloth to remove accumulated soil and allow it to air dry. Leather conditioners and protectants, such as those by Leather Master® can be used as directed. Should a spill occur, blot (pressing gently without rubbing) immediately using clean, dry sections of an absorbent cloth or paper towel. Should soiling remain or for a more thorough cleaning, Cortina Leathers Universal Cleaner High-Tech Wipes® or a solution of lukewarm water and a mild cleaner, such as Ivory® soap or Woolite®, may be used. Dampen a clean white cloth and gently wipe the affected area using a circular motion. Rinse completely with clean sections of cloth which is damp with plain water until all cleaner is removed. Blot dry with paper towels or dry cloth and allow to completely air dry. Repeat the cleaning process as needed, allowing the leather to dry between applications. While it is possible to remove many deep stains and soiling from semi-aniline and pigmented leathers, it may not be possible to remove all stains from this natural product. More information is available on our website at cortinaleathers.com/resources/care-cleaning/.
