

Athene

Visualize | Realize | The leather you imagine, and more.

As much as any leather, Athene embodies Italian design and color acumen. A fine aniline leather with exceptional color depth, Athene features a smooth glossy finish that is distinguished by its unique micro-crackle distress which is both stylish and inviting. When stretched the leather subtly lightens to display multiple hues and the natural characteristics which mark truly authentic leathers. Italian designers continually add fresh, bright colors to this impressive color line. Finished with a protective topcoat, Athene is a versatile choice for a broad variety of applications.

Note: Environmentally friendly Athene is lead free, emits low VOCs and has achieved an Indoor Gold Advantage certificate from SCS.

Technical Specifications

Origin	Italy
Raw Material	Top grain, European bovine
Leather Type	Aniline
Hide Size	50 – 55 sq.ft.
Thickness	0.9 – 1.1 mm
Abrasion Resistance	ASTM D7255: CS10 Taber Wheel 250 Cycles/500 gram weight
Light Fastness	ISO 102-B05: Blue Wool Scale ≥ 3
Wet Crocking	ASTM D5053: Class 4
Flame Resistance	NFPA 260: Class 1; CAL TB117–2013
Performance Category	2
Cleaning Code	2

Performance Category 2

Leathers with Performance Category 2 retain their natural appearance while carrying additional protections against abrasion, staining and color fading. Aniline leathers with some protection and semi-anilines are found here. These leathers are suitable for a wide range of applications across a wide range of wear and stain risk, such as those found in commercial settings and dining areas. More information is available on our website at cortinaleathers.com/resources/performance.

Warranty

Leathers with Performance Category 2 have a 1 year limited warranty against manufacturing defects. See complete details at cortinaleathers.com/resources/warranty.

Care & Cleaning Code 2

Aniline leathers are designed to age gracefully, increasing in beauty over time. Very little care is required—general upkeep requires only an occasional dusting with a clean cloth. Never use oils, saddle soaps, harsh cleaners or cleaners containing abrasives on aniline leather. Periodically, you may wish to gently wipe the leather with a clean, slightly damp cloth to remove accumulated soil and allow it to air dry. Should a spill occur, remove immediately to avoid permanent discoloration by blotting (pressing gently without rubbing) with clean, dry sections of an absorbent cloth. Should soiling remain, a solution of lukewarm water and a mild soap such as Ivory® or a mild cleanser such as Woolite® may be used. Dampen a clean white cloth in the solution and gently wipe the affected area using a circular motion. Never apply the solution directly to the leather. Rinse completely with clean cloth which is damp with plain water until all cleaner is removed. Blot dry with a paper towels or dry cloth and allow to completely air dry. It may be necessary to repeat this procedure, allowing the leather to completely dry between applications. To avoid harming the leather, do not rub vigorously or for an extended period. It may not be possible to remove all stains from this natural product. More information is available on our website at cortinaleathers.com/resources/care-cleaning.
