VIRGINIA LANGLEY

A Cortina Leathers luxury collection by Virginia Langley

Future-Fit  
futurefitbusiness.org

The art of nature is depicted in this exclusive Virginia Langley collection of pure leather luxury. With top quality European bulls and oxen as the canvas, metallic and pearlizing treatments are hand rubbed into the leather, highlighting the essence and texture of this organic material. Each fresh color feels alluring and mesmerizing when layered, bringing a new harmony that will dazzle any interior.

**Note:** Environmentally friendly Natural Worlds is lead free and emits low VOCs.

## Technical Specifications

Thickness

1.0 – 1.2 mm

Flame Resistance

NFPA 260: Class 1; CAL TB117-2013

Color Specific Specs

Amber  
Metallic Silver  
Platinum Oyster  
Ivory Pearl  
Beach  
Burnt Rose  
Argento  
Titanium Olive  
Denim  
Gunmetal  
Silver Charcoal  
Malibu  
Copper  
Golden Sandstone  
Silver Blush  
Dark Orchid

## Performance Category 1

Leathers with Performance Category 1 are considered by many to be the most beautiful and authentic leathers, most likely because they are least protected. These leathers include pure anilines, aniline leathers with less protection, nubuck leathers, suedes, etc. All Category 1 leathers are protected with water repellency to resist water spotting and are expected to patina, wear and age gracefully over time, making them perfect for many applications. However, these leathers are not recommended for uses where they will be subjected to heavy staining, abrasive wear or direct sunlight. More information is available on our website at [cortinaleathers.com/resources/performance/](http://cortinaleathers.com/resources/performance/).

## Performance Category 2

Leathers with Performance Category 2 retain their natural appearance while carrying additional protections against abrasion, staining and color fading. Aniline leathers with some protection and semi-anilines are found here. These leathers are suitable for a wide range of applications across a wide range of wear and stain risk, such as those found in commercial settings and dining areas. More information is available on our website at [cortinaleathers.com/resources/performance/](http://cortinaleathers.com/resources/performance/).

## Care & Cleaning Code 2

Aniline leathers are designed to age gracefully, increasing in beauty over time. Very little care is required—general upkeep requires only an occasional dusting with a clean cloth. Never use oils, saddle soaps, harsh cleaners or cleaners containing abrasives on aniline leather. Periodically, you may wish to gently wipe the leather with a clean, slightly damp cloth to remove accumulated soil and allow it to air dry. Should a spill occur, remove immediately to avoid permanent discoloration by blotting (pressing gently without rubbing) with clean, dry sections of an absorbent cloth. Should soiling remain, a solution of lukewarm water and a mild soap such as Ivory® or a mild cleanser such as Woolite® may be used. Dampen a clean white cloth in the solution and gently wipe the affected area using a circular motion. Never apply the solution directly to the leather. Rinse completely with clean cloth which is damp with plain water until all cleaner is removed. Blot dry with a paper towels or dry cloth and allow to completely air dry. It may be necessary to repeat this procedure, allowing the leather to completely dry between applications. To avoid harming the leather, do not rub vigorously or for an extended period. It may not be possible to remove all stains from this natural product. More information is available on our website at [cortinaleathers.com/resources/care-cleaning/](http://cortinaleathers.com/resources/care-cleaning/).

## Care & Cleaning Code 3

Semi-aniline leathers are protected against scratching and scuffing and designed to maintain their beauty over time. Very little care is required—general upkeep requires only an occasional dusting with a clean cloth. Never use oils, saddle soaps, harsh cleaners or cleaners containing abrasives on semi-aniline leather. Periodically, you may wish to gently wipe the leather with a clean, damp cloth to remove accumulated soil, then allow it to air dry. Should a spill occur, blot (pressing gently without rubbing) immediately to avoid permanent discoloration with clean, dry sections of an absorbent cloth. Should soiling remain, a solution of lukewarm water and a mild soap such as Ivory® or a mild cleanser such as Woolite® may be used. Dampen a clean white cloth in the solution and gently wipe the affected area using a circular motion. Never apply the solution directly to the leather. Rinse completely with clean cloth which is damp with plain water until all cleaner is removed. Blot dry with a paper towels or dry cloth and allow to completely air dry. It may be necessary to repeat this procedure, allowing the leather to completely dry between applications. To avoid harming the leather, do not rub vigorously or for an extended period. It may not be possible to remove all stains from this natural product. More information is available on our website at [cortinaleathers.com/resources/care-cleaning/](http://cortinaleathers.com/resources/care-cleaning/).

## Care & Cleaning Code 4

Semi-aniline and pigmented leathers are resistance to wear, scratching and staining so they require very little maintenance to maintain their beauty over time. General upkeep requires only an occasional dusting with a clean cloth. Periodically, you may wish to gently wipe the leather with a clean, damp cloth to remove accumulated soil and allow it to air dry. Leather conditioners and protectants, such as those by Leather Master® can be used as directed. Should a spill occur, blot (pressing gently without rubbing) immediately using clean, dry sections of an absorbent cloth or paper towel. Should soiling remain or for a more thorough cleaning, Cortina Leathers Universal Cleaner High-Tech Wipes® or a solution of lukewarm water and a mild cleaner, such as Ivory® soap or Woolite®, may be used. Dampen a clean white cloth and gently wipe the affected area using a circular motion.

## Care & Cleaning Codes (continued)

Rinse completely with clean sections of cloth which is damp with plain water until all cleaner is removed. Blot dry with paper towels or dry cloth and allow to completely air dry. Repeat the cleaning process as needed, allowing the leather to dry between applications. While it is possible to remove many deep stains and soiling from semi-aniline and pigmented leathers, it may not be possible to remove all stains from this natural product. More information is available on our website at [cortinaleathers.com/resources/care-cleaning/](http://cortinaleathers.com/resources/care-cleaning/).

## Warranty

Leathers with Performance Category 1 and 2 have a one-year limited warranty against manufacturing defects. See complete details at [cortinaleathers.com/resources/warranty/](http://cortinaleathers.com/resources/warranty/).
