

Direct Recruiters has been recognized as the relationship-focused search firm that assists Vehicle Technology organizations with recruiting, acquiring and retaining high-impact talent for mission-critical positions. We have been a trusted partner for some of the most progressive companies in the industry.

DRI has been a leader in providing recruiting, staffing, executive search, placement, talent management, and consulting solutions since 1983. We have a reputation for delivering qualified job candidates quickly and professionally.

As one of the most important economic sectors by revenue, the Automotive industry today continues to incorporate advanced technologies, creating a variety of career paths and positions across many disciplines. Our goal is to help organizations within the industry to find the talent required to fill these positions for sustainable long-term growth. We build relationships with Automotive Technologies clients to fully understand which candidates will be the best cultural and organizational fit.

The DRI Vehicle Technology team is comprised of Senior Recruiters and Research Associates who have a thorough understanding of the industry and current job market. On a daily basis, we are in contact with executive management and hiring authorities looking to fill open positions with top professionals.
