

**Energy & Sustainability**

Direct Recruiters has been recognized as the relationship-focused search firm that assists Energy and Sustainability organizations with recruiting, acquiring and retaining high-impact talent for mission-critical positions. We have been a trusted partner for some of the most progressive companies in the industry.

Energy & Sustainability is the proactive, organized and systematic coordination of procurement, conversion, distribution and use of energy to meet stringent requirements and take into account environmental and economic objectives, i.e. avoiding ill effects on humans, nature and the environment.

As a whole, the Energy Industry is undoubtedly an engine of growth. In fact, it's a force that's changing the face and future of this country as well as the planet. The Energy Industry and more specifically, Energy & Sustainability, has an incredible potential to create jobs and new opportunities in technology never seen before.

As with any emerging industry, companies that are able to attract and recruit the best talent will lead the industry. With that in mind, Direct Recruiters' executive search delivers the most effective placements and talent solutions for:

- Energy Management Software
- Energy Program Management & Implementation
- Demand Response
- Performance Contracting
- Cleantech
- Energy Recovery
- Energy Conservation
- Energy Efficiency
- Building Automation
- Smart Grids
- AMI & AMR Technologies
- Energy Management Hardware
- Systems Integration
- Utility Industry
- Building Commissioning
- Building Performance and Management Consulting
- Energy Auditing
- HVAC
- Geothermal
- Energy Storage
- LED Lighting

DRI's goal is to help you stay competitive and keep pace with this quickly growing industry by recruiting Energy & Sustainability professionals who can make a difference to your organization.

The DRI executive search team is comprised of Senior Recruiters and Research Associates who have a thorough understanding of how to recruit for the Energy & Sustainability industry, current job market, and what it takes to fill open Energy & Sustainability positions. On a daily basis, we are in contact with executive management and hiring authorities looking to recruit and hire top energy industry professionals including:

- C-Level Executives
