FOR IMMEDIATE RELEASE

Zerust Corrosion Protection Products Adds Gun Cleaner & Oil Lubricant to Line

Patented Rust Inhibitor Formulated with Bio-Degradable Oils

TWINSBURG, OH (April 1, 2015) CLEVELAND – Zerust® Consumer Products, Inc. has added two new offerings to its gun protection line: Corrosion Inhibitor Gun Bore Cleaner and Gun Conditioning Oil. The other products in the company’s gun care and protection line include VCI weapon protection bags, vapor capsules, and tube and barrel strips.

“We are excited to expand our line of gun care products to include the gun oils,” says Owner Budd Dworkin. “We have had considerable customer interest in these products and are happy to bring them to market.”

Dworkin says the Gun Bore Cleaner dissolves used lubricants, including grease and oil, with no residue, leaving a clean, dry surface. The Gun Conditioning Oil protects guns from rust, while providing lubrication and reducing friction. Used together, the oils clean, lubricate and protect valuable firearms to keep them in peak performance condition.

The oils are available at www.zerustproducts.com and through national distributors.

About Zerust Products

Zerust® Products offer rust protection and corrosion prevention for valuable possessions, including electronics and tools, fine silverware and jewelry, motorcycles, automobiles and ATVS, firearms and weapons, commuter and high-end bicycles and table saws.
