UNITED WAY GIVING SOCIETIES

Joining a United Way Giving Society is a powerful way to invest in North Texas. These groups of passionate hand-raisers are committed to create lasting change by supporting United Way’s work to improve education, income and health—the building blocks of opportunity. Every year, Giving Societies enable United Way to create opportunity for more than 1 million North Texans by preparing more students for success in college or career, helping local families achieve financial stability and enabling more of our neighbors to live long, healthy lives.

We invite you to be part of the movement by joining a United Way Giving Society. We’re pleased to honor donors with exclusive opportunities that recognize leadership giving in our fiscal year, July 1 to June 30.

RUTH SHARP ALTSHULER TOCQUEVILLE SOCIETY

Our most generous giving society and powerful force for good, for those contributing at least $10,000 in a fiscal year.

Tocqueville Society members receive special recognition at the $10,000 and $25,000 levels. These donors (and spouses) may elect to participate in the Women of Tocqueville—a dynamic group of women who create lasting impact in our community through advocacy, volunteerism and fundraising—and/or Bench & Bar for members of the legal profession. New Tocqueville donors may qualify for membership through the Graduated Giving option.

This initiative is a three-year leadership initiative designed to engage the next generation of Tocqueville members, made possible by the generous support of Carol and Kevin March.
