VIBRANT HEALTH®

WHERE SCIENCE & NATURE MEET

A MAN'S ZINC™

- ▶ Zinc arginate and plant sterols are known to support healthy prostate function.*
- ▶ Zinc is required for production of hormones needed for normal growth, development, maturation, reproduction and tissue integrity. You can't make new cells without it.
- ▶ Zinc potentiates the action of insulin, helping move sugar into cells. (So do chromium, vanadium, and manganese.)
- ▶ Zinc stabilizes cell membranes, protecting them against oxidation. In that role, it is an anti-aging nutrient.*
- ▶ Zinc has been identified in several hundred enzymes and proteins. Zinc, as part of these enzymes, is critical to the metabolism of proteins, nucleic acids, lipids, mucopolysaccharides and carbohydrates.
- ▶ **Directions** As a dietary supplement, take one (1) tablet daily. Keep out of reach of children. Store in a cool dry place.
