

USING 360 VIDEOS IN THE CLASSROOM

A number of our stories have accompanying 360-degree video experiences that create an engaging interface with the locations, characters and issues in our stories. Here are our tips on how to integrate 360 videos into the classroom.

Example

Full Story: From Farmer to Family (<https://www.undertoldstories.org/2019/04/29/from-farmer-to-family/>)

360 Experience: Follow the Milk Money (<https://www.undertoldstories.org/360-story/follow-the-milk-money/>)

1. Watch a full story in classroom or assign as homework.
2. After viewing the story, you can use the 360 video in a number of ways.
 - Option A: If class is on St. Thomas campus schedule, a class period to meet in the St. Thomas STELAR Center to use headsets for an immersive audio and visual 360 experience.
 - Option B: Use mobile phones and Google Cardboard Viewers or other viewers in the classroom for an accessible and easy to use 360 experience.
 - Watch video as a normal 360 “click and drag” on desktop or mobile.
3. Follow discussion guide or course module to reflect on the story and the 360 experience.
