[under·told STORIES]

General questions

1. What problems can you identify in this story? Are solutions presented?

2. In what way might this story be relevant in your community?

Further exploration

1. Are there any unmapped areas in your community?

2. Can you think of other uses for the mapping technology?

3. Could technology skill training in urban slums lead to innovation that wouldn't happen elsewhere? How so?

4. What are some other examples of how technology can help people improve their communities? Are there also potential adverse impacts from the application of technology. How can these be mitigated?
