

### **General questions**

1. What problems can you identify in this story? Are solutions presented?
2. In what way might this story be relevant in your community?

### **Further exploration**

1. What features of the public-private partnership made the Patients Aid Foundation possible?
2. PAF is able to deliver top-notch care to the poorest patients, but the nation's health care system is largely underdeveloped. Why do you think this unique system developed in such an adverse environment?
3. Is there an ethical responsibility to make the highest level of care accessible to the poorest patient? Why or why not? If yes, who does that responsibility fall on?
