

## CEREAL INGREDIENTS, INC

*Table Top 206*

Cereal Ingredients, Inc. (CII) produces food particulates that add flavor, texture and color to baked goods, cereals, and numerous food applications, as well as pre-blended mixes to create added flavor and swirl effects in bread products. Flav-R-Bites®, the particles are specially formulated for specific client needs, are offered in a variety of sizes, flavors and textures, and are produced using CII's patented product and process technology. In addition to baked goods and cereals, other food applications include ice cream, nutritional foods, pet treats, confection, streusel and other crunches and toppings.
