

MECATHERM

Table Top 214

The French company MECATHERM is a world leader in industrial bakery equipment and the number one in automatic production lines for industrial bakeries. Since 1964, it designs and manufactures ovens, machinery and automatic production lines exclusively for players in the bakery & pastry industry. With more than 780 automatic lines installed by the Group, currently processing in over 63 countries on 5 continents, Mecatherm makes 90% of its turnover internationally. It devotes a substantial part of its activities to research and development, and provides a direct technical and commercial relationship with its customers.
